PROFESSIONAL SUMMARY

Data Analyst with 4 years of experience delivering end-to-end analytics across Fortune 500 and enterprise clients. Holds a Master of Applied Artificial Intelligence (Deakin University, 2024) and Microsoft PL-300 Power BI certification. Proven track record of cutting reporting turnaround by 40%, improving data accuracy by 20%, and building scalable BI solutions using SQL, Power BI, Python, Snowflake, and Azure. Skilled at translating complex data into executive-level insights and integrating Generative AI into analytics workflows.

KEY SKILLS

Technical: SQL, Python, Excel, Power BI, DAX, Snowflake, Azure, ETL, Data Modelling, Statistics, Generative AI, LLMs

Tools: Power BI Service, Azure Data Studio, Git, Jira, ERP Systems

Business: KPI Reporting, Executive Presentations, Stakeholder Engagement, Data Storytelling, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Data Reporting Analyst | GWMI Group, Geelong VIC | June 2023 - Present (Part-Time)

- Tracked 10+ operational KPIs via SQL reporting workflows, ensuring consistent data availability for leadership.
- Reduced manual report preparation by 3 hours/week through automated Excel dashboards and templates.
- Improved data accuracy by 20%, consolidating 4+ sources into a single master dataset.
- Delivered 15+ monthly ad-hoc reports within 24-hour SLAs for senior management.

ERP Data Analyst | Thirdware Solutions, Mumbai, India | July 2019 - July 2021

- Cut reporting turnaround by 40%, delivering ERP analytics automation across 15+ Fortune 500 clients.
- Built Power BI dashboards and SQL reports tracking inventory, procurement, and order fulfilment KPIs.
- Defined KPI frameworks and data models with client stakeholders across manufacturing and FMCG operations.

ERP Software Engineer | Thirdware Solutions, Mumbai, India | July 2018 - July 2019

- Reduced manual reporting effort by 20%, automating ERP data extraction pipelines using SQL.
- Built Excel templates for purchase order and inventory tracking, adopted daily by client operations teams.
- Supported ERP configuration and reporting changes for automotive clients within agreed timelines.

EDUCATION

Master of Applied Artificial Intelligence - Deakin University (2021 - 2024)

Bachelor of Engineering (Electronics) - Mumbai University (2013 - 2017)

ACS Professional Year Program - Performance Education (Oct 2025 - Present)

PROJECTS

F1 Race Performance Analytics | Snowflake, SQL, Power BI, Python

- Ingested 14 F1 data tables (1950-2024) into Snowflake using a two-layer raw and analytics schema.
- Wrote SQL views analysing qualifying rates, DNF patterns, and championship dominance across 7 decades.
- Published a 4-page Power BI report with live Snowflake connectivity and DAX measures to the Power BI Service.
- Used Generative AI to accelerate insight generation, validated against underlying SQL results.

Power BI Dashboard for AFL Analytics | Power BI, DAX

- Architected a star-schema data model across 6,416 player-game records for fast, scalable multi-season analysis.
- Built advanced DAX measures, including Efficiency Scores, rolling averages, and opponent benchmarking.
- Designed drill-through dashboards combining match results, attendance, and player stats, published to Power BI Service.
